

WeR@Home™

Slim Indoor HD Camera

(ES800HDR-M01)

Getting Started

To start using your HD Camera,
follow these easy steps

1

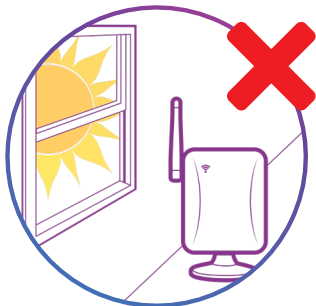

Where to place the camera

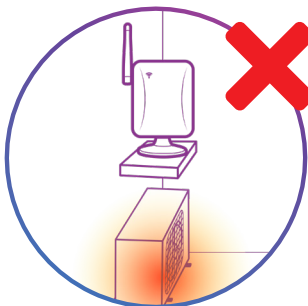

Within Wi-Fi or
cable range

Near power
supply

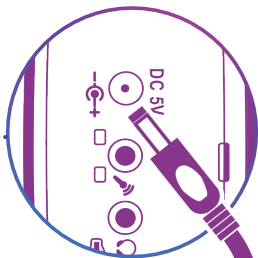

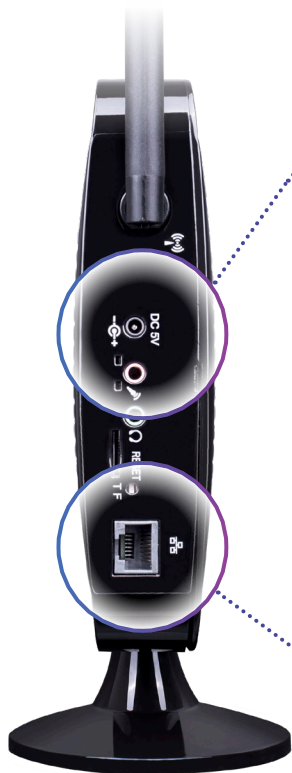

Not in direct
sunlight

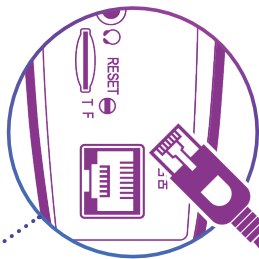

No extreme
temperatures

2

Attach the cables

Connect
power cable

Connect Ethernet cable
(RJ45)

Optional: Insert formatted SD card

3

Add the camera to WeR@Home™

- 1 Open the WeR@Home™ app
- 2 Tap 
- 3 Tap **DEVICES**
- 4 Tap **Add device**
- 5 Tap **HD Camera**
- 6 Follow the on-screen instructions
- 7 For wireless use: Tap **Configure** and then **Wi-Fi Network**.
Remove cable when instructed.

If the WeR@Home app can't find the camera:

1. Ensure that smartphone and camera are connected to the same network
2. Use the the tip of a pen to press and hold the RESET button for 5 seconds. Wait 30 seconds and try again
